

The components of the territory

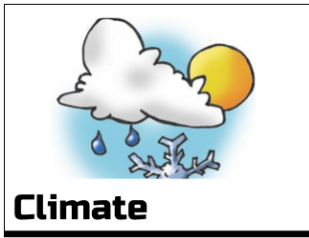

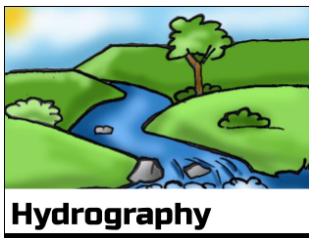

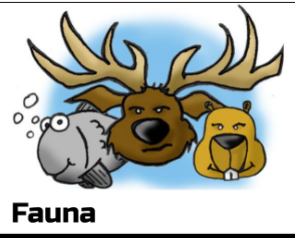

Using the texts provided, specify the different components of the territory.

Learning Activities

Consult the student workbook and texts

Human actions

What images represent this list of **human actions**?

Feed oneself?

Growing food?

Housing?

Getting around?

Clothing?

Fauna

Group notes

Relief

Group notes

Group notes

Getting around

Find the missing element for each of the equations. Make hypotheses (guesses) regarding the limitations and assets of these **components** of the territory, using the texts of Societies and Territories web site!

?

+

?

Assets or Limitations?

The water route can be a limitation, especially when there are rapids.

Using the bark of trees, the Iroquoians build canoes. This way, they can move faster, which becomes is an **asset** for them. Rapids can be crossed by portaging.

Climate

Feeding oneself

Find the missing element for each of the equations. Make hypotheses (guesses) regarding the limitations and assets of these **components** of the territory, using the texts of Societies and Territories web site!

?

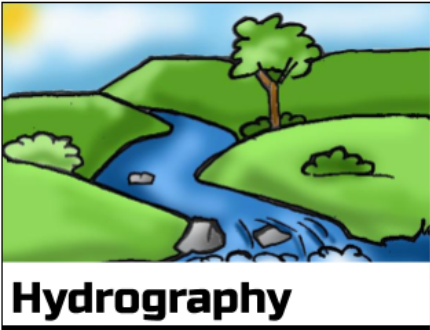

+

Assets or
Limitations?

Fish is often on the menu as well as meats such as wild turkey (extinct now), and partridge, and wild pigeon (extinct).

←

Making clothing

Find the missing element for each of the equations. Make hypotheses (guesses) regarding the limitations and assets of these **components** of the territory, using the texts of Societies and Territories web site!

?

+

Climate

Assets or
Limitations?

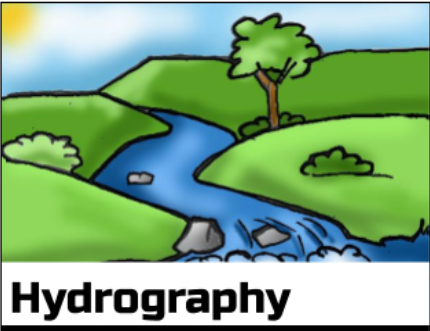

A limitation, it can get cold
outside

Fauna

Vegetation

Hydrography

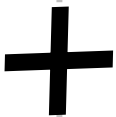

Relief

← Growing food

Find the missing element for each of the equations. Make hypotheses (guesses) regarding the limitations and assets of these **components** of the territory, using the texts of Societies and Territories web site!

Relief

Climate

Assets or
Limitations?

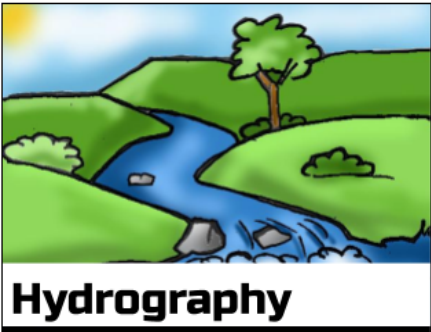

An asset, the temperature is
mild in summer.

Fauna

Vegetation

Hydrography

Housing

Find the missing element for each of the equations. Make hypotheses (guesses) regarding the limitations and assets of these **components** of the territory, using the texts of Societies and Territories web site!
